

SUBJECT: METHOD OF OPERATION

The BOCES operates at the policy-making level, leaving the administration of that policy to its executive office administrators and supervisors, thus freeing itself for major considerations and decisions.

Board policies are statements, which set forth the purposes and prescribe in general terms the organization and program of the BOCES. They create a framework within which the District Superintendent and other staff can discharge their assigned duties with positive direction. Essentially, they tell what is desired and they may also indicate reasons why and how much.

Specific directions giving precise details of how, by whom, where, and when things are to be done, are rules and regulations.

This distinction between policy, rules and regulations does not imply that policy should deal only with abstract expressions of theory and philosophy. On the contrary, statements of policy should spell out clearly what the Board intends. The clearer the statement of the policy the clearer the directions to be taken by the administration.
