

Southern Adirondack Education Center (SAEC) Spring 2016

resource CENTER

Grades 4 - 8 - Tuesdays, 3:00- 4:45 p.m. Mar. 8, 15, 29, Apr. 5, 12, 19 Snowdate: May 3 Registration Deadline: February 23, 2016

Beginning Machine Sewing with Julia Ritchie (Jewels)

Cosmetology with Rachel Hunt

Explore hair structure, braiding techniques, skin science, manicures and pedicures. Try your hand at the products and tools used in the cosmetology industry. Classes meet in the BOCES Career Education Cosmetology classrooms.

Perfect Party Planners, Inc. with Mary Beth Schwartz

What does it take to make the best party ever? In this class we will create our own fantastic party and invite guests in on the last day to enjoy it. We'll decide on a theme: Mexican Fiesta? Pajama Party? a Beach Party for Fourth of July? or a 5-year-old kid's birthday? Or something else crazy that you come up with! We'll come up with invitations, make food, decorations, games, music, the works!!! Just like professional party planners have to do, we'll need to keep within a budget and create a timeline of things that need to be done, by whom, and when. Our goal will be to throw the perfect party -- sheer fun and delight for all our special guests.

Get Wild! with Wilton Wildlife Preserve & Park

In this interactive series students will build glacier models, conduct fire experiments and meet live reptiles! This interdisciplinary course explores the unique plants and animals of the Sandplains ecosystem, including the endangered Karner Blue Butterfly. Over the six weeks, students will work together to conduct hands-on labs and experiments, and create unique art projects. Join us to work with real mammal skulls

and furs, sculpt clay birds, and play ecosystem games! Don't miss out on this wild series!

Sky Fliers with Ellen Franklin-Furgason

Would you like to build a flying machine? This class will help you learn about flight by building and flying parachutes, kites, gliders, paper airplanes and rockets. Then we will design and build our own "flying machine" creations. Blue Skies!

Up & Away Design & Manufacturing with David Coonradt

If you want to start to learn about Manufacturing Engineering then this is the course for you! In this course students will work on designing a manufacturing part. They will draw a sketch, a blueprint of the part, then machine or manufacture the part on either a manual lathe or a CNC machine. Students will take home their design.

The Wow of Bow Wow with Helen Bemis - K-9 Karing

Learn the language that dogs speak. Playing dog games and having visits from the local working (and other) dogs will highlight this class. Bonus bones will be earned for graduation prizes. You can have fun teaching Rover tricks, so this will be an added bonus. Sign up for the fun today.

The Washington-Saratoga-Warren-Hamilton-Essex BOCES does not discriminate in its employment and admission to programs and activities as applicable, on the basis of actual or perceived race, color, creed, sex, sexual orientation, national origin, religion, age, economic status, marital status, veterans' status, political affiliation, domestic victim status, use of a guide dog, hearing dog or service dog, disability, or other classifications protected under federal or state law, and provides equal access to the Boy Scouts and other designated youth groups. The designated district compliance officers will coordinate compliance with the nondiscrimination requirements of Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, as amended, the Boy Scouts of America Equal Access Act, and the New York State Human Rights Law.

Spring 2016 -- PROJECT ENRICH -- Southern Adirondack Education Center Tuesdays, 3:00 - 4:45 pm, Mar. 8, 15, 29, Apr. 5, 12, 19 Snowdate: May 3
